For ease of reference, I have reproduced your question below and set out our corresponding response.

- a) **The calculations to support the amount properly due on invoices rendered by this Contractor. These need the input of a Chartered Civil Engineering Quantity Surveyor, who has the qualification and experience to determine such matters**
- b) **The date that these calculations were made. This should have been before any payment was made.**
- c) **The reference to the rates and prices contained with the contract.**

We do not hold records matching the description of the information requested above.
