Investment in the Welsh language

Thank you for your email of 22 January 2017 in which you ask whether the audit office has undertaken a 'full assessment of the investment strategy of the Welsh Language and what impact it has had'.

I regret that I am not clear as to what you mean by 'the investment strategy of the Welsh Language'. If you are referring to the Welsh Government's Welsh language strategy (as set out in *A living language: a language for living – Welsh language strategy 2012 to 2017*), or overall Welsh public bodies' investment in Welsh language matters, then I can say that neither the Auditor General for Wales nor the Wales Audit Office has undertaken such an assessment. If, however, you are referring to something else, please let me know.

Yours sincerely,
